

Indiana University Accessibility Web Page Wellness Check:

The site is hosted on sitehost.

Tech Inventory:

Home page:

The page has text content, links to other pages on the site.

There is a dead link in the "Assistance with accessibility at IU" section inside of the "Review training options" chunk. (it leads to .../training/index-old.html when it should lead to .../training/index.html)

Getting Assistance page:

The page has text content, links to other pages on the site and the IU policies site.

ADA @ IU folder:

Contains text content, an accordion navigation to other sub-pages

All subpages contain one or more of the following: text content, links to other pages on the site and other sites, some internal to IU and some external

Creating Accessible Content folder:

Contains text content, an accordion navigation to other sub-pages, links to other pages on the site

All subpages contain one or more of the following: text content, in-page images (PNG format), links to other pages on the site and other sites, some internal to IU and some external

Training page:

Contains text content, links to other pages on the site and other sites, some internal to IU and some external

Understanding Accessibility folder:

Contains text content, an accordion navigation to other sub-pages

All subpages contain one or more of the following: text content, links to other pages on the site and other IU sites with forms (using various form creation systems)

While they are not currently actively used on the site, there are multiple files with custom code to procedurally generate some of the pages, they appear to be from a prior version of the site
